

- Providing opportunities for SEN children to hide, to explore, to experience risk, to be physically and mentally challenged is vital.
- Safety takes on a different design dimension, with special features required for special kids.

Please contact us to discuss your requirements.

SEN children learn better outdoors too

- “Rachel Hines, University of Essex, studied 5,000 prisoners and hospital patients exposed to a green view. In both cases people responded positively with improved outcomes against the control subjects”
- Many studies show the benefits of connecting with the natural world, for all people.
- Children with special educational needs, whether managing physical or mental disabilities, or in combination, all achieve significantly better when offered outdoor learning opportunities
- Preparation is key to taking SEN students outdoors.
- Confident staff lead confident students.

CPD courses cover:

- understanding and managing risk,
- safety,
- benefits of outdoor learning,
- management of students in unfamiliar surroundings,
- design elements necessary to support outdoor learning
- development and use of sensory gardens.

- CPD Courses run from 9a.m. – 3p.m at the classroom in the Alice Holt Forest, Hampshire, or at times and location convenient to you.
- Half day and twilight INSET day courses are available.
- Bespoke courses are our speciality. Please contact us with your school or consortium’s requirements.
- Costs vary depending on location and size of group
